Guidance
Shri K.N. Rao

Acknowledgement

I offer deep sense of gratitude and indebtedness to Shri K.N. Rao ji, who considered me capable of undertaking research on 'adoption' and inspite of his busy schedule always gave valuable advice and guidance. The subject of research was indeed a challenging one and collection of horoscopes of adopted children was a tough task and project of research in itself.

In modern times, who else but Shri K.N. Rao ji can inspire students to undertake research based on classical astrological principles in modern context and get proper conclusion.

I am highly obliged and express heart-felt gratitude to Shri Manoj Pathak ji who has personally helped in improving, editing and presenting this book in this present form.

I am also thankful and indebted to members of my family especially my son Ashutosh for their active co-operation, patience and appreciation of my work.

An expression of great gratitude and thankfulness to Shri Rajendra Singh and Shri Bharat Singh for their support and suggestion in proper presentation of the book, will be a mere formality.

I am highly thankful for financial aid granted for publication by 'The Society for Vedic Research and Practices', which hold a very prominent place in publication of similar researches in Vedic literature.

My humble contribution is now before lovers of astrology for their valuable suggestion.

Adoption and Law

The only codified law available for adoption in India, is THE HINDU ADOPTION AND MAINTENANCE ACT (HAMA) This Act came into force in 1956 and is applicable to:

- > any person who is a Hindu by religion in any of its forms or development.
- > any person who is a Buddhist, Jain or Sikh.
- > any person who is not a Muslim, Christian, Parsi or Jew.
- > any child legitimate or illegitimate whose parents are Hindus, Buddhists, Jains or Sikhs.

r any child legitimate or illegitimate one of whose parents are Hindus, Buddhists, Jains or Sikhs and has been so brought up.

r any abandoned child, legitimate or illegitimate of unknown parentage brought up as a Hindu, Buddhist, etc.

- > any person who is a convert to the Hindu, Buddhist, Jain or Sikh religion.

YOU CAN ADOPT IF...

1. You are a Hindu male, over twenty one years, single and of sound mind.
2. If you are a married Hindu Male, then you can adopt only with the consent of the wife.
3. if you are a female Hindu of sound mind and single viz. either married widowed or divorced.

WHO CAN YOU ADOPT

1. A son-if you do not have a biological son, grandson or great grandson.
2. A daughter - if you do not have a biological daughter or a son's daughter.

The adopted child enjoys all the rights of the biological child.

THE GUARDIAN AND WARD ACT (GWA)

Personal law of Muslims, Christians Parsis and Jews does not recognise complete adoption. As non-Hindus do not have an

enabling law to adopt a child legally, those desirous of adopting a child can only take the child in 'guardianship under the provisions of The Guardian and Wards Act, 1890.

This however does not provide to the child the same status as a child born biologically to the family.

Unlike a child adopted under the Hindu Adoption and Maintenance Act, 1956 the child cannot become their own, take their name or inherit their property by right. This Act confers only a guardian-ward relationship. This legal guardian-ward relationship exists until the child completes 21 years of age.

Foreigners who seek to adopt an Indian Child, can do so under this Act to assume legal Guardianship of the child, after giving an assurance to the court, that they would legally adopt the child as per the laws of their country, within two years after the arrival of the child in their country.

Preface

Adoption means a child changing its house from that of its biological parents into adoptive parents. Here the original parents sever their parental responsibility.

It is generally well known in some families in India though it may be kept a secret in some cases. Often, information about biological parents is also not available in some cases.

Adoption can be for many reasons:

1. A childless couple who wants to have children of others for their families.
2. From country to country, may be different but generally the legal and social pattern of such adoptions are generally the same with a recognizable pattern.
3. In recent years, we have many cases of children from orphanages being adopted by Indians and even foreigners, in these cases, we cannot obtain correct birth details and therefore unless sure of the birth details, we have not included them in this study.
4. In India, we do not have known cases of unwed mothers abandoning their children generally and even in those cases where it is known, birth details are always uncertain. Such horoscopes fall outside this research.
5. In India, we have not generally heard of same sex couples adopting children.
6. Slowly, Indians are waking to the reality of not having children if one of the parents has some incurable or inheritable disease.

This is an astrological study of the horoscopes of children who went into adoption sometime after their birth and some of them immediately after birth.

In India, the general arrangements in families is that the child of one brother or sister will be adopted by another sibling and this is done immediately after birth. The dasha at birth becomes relevant for this purpose.

For this purpose we are applying uniformly on the data before

us, the following parameters:

1. The condition and placement of the ninth lord in the birth horoscope of the child- The ninth lord becomes important because legally the adoptive father becomes an important person in cases of adoption.
2. These are seen in three varga charts: birth horoscope, dwadashamsha and chaturthamsha.
3. The relevant dasha shows the movement of the child from one house to another or one parent to another.
4. In all these cases, the eighth, twelfth and the third house seem to gain importance.

The horoscopes used in this study are reliable since they have been collected from families known to Shri Rajbir Singh.

How to see adoption in a horoscope?

Adoption can be of various types.

A total change of house meaning moving into a new house, with a new mother and a new father.

Part change meaning moving into a new house with a new father but the same mother who is also the child's biological mother.

Moving into a new house/surrounding after the death of mother and going to the house of a relation with the biological father remaining legally also the father of the child because there is no legal adoption of the child though the child has a new mother.

To see it, examine the following.

Houses and lords to be examined

1. The fourth house and the fourth lord in the birth horoscope.
 2. Examine the ninth house and ninth lord in the birth horoscope.
- Importance of dwadashamsha
3. Examine these in the dwadashamsha.
 4. Where necessary examine them in the chaturthamsha.

Role of dashas

The role of the dasha is very important. Generally, adopt on takes place early in childhood or in sub teens. Therefore the dasha at this age is important factor in this research.

The application of these parameters are being illustrated with the help of the horoscopes of two famous men of the world, Bill Clinton of USA and P.V Narasimha Rao, the former Prime Minister of India.

Bill Clinton

Dasha at birth was Sun-Sun-Sun

Notable features here are the combination of the ninth lord with the eighth lord which is aspected by Saturn which had and did prove fatal for his biological father.

Sometime in 1993 I got the birth date of Bill Clinton the former

president of USA. The birth time was not known but the rough indication was that he was born in the morning. In such cases, some undisputed fact helps you to fix the lagna. In this case, one valuable information available was that he was a posthumous child as his biological father died three or four months before his birth. The second useful bit was that his mother remarried and Bill adopted the name of his step father, going into adoption in a way.

In the birth horoscope it is the dasha of twelfth lord with the ninth lord afflicted and with the eighth lord.

In the dwadashamsha, the ninth lord Venus is in the eighth house.

The dasha at birth of Sun shows a highly afflicted Sun again the twelfth lord here.

In the Chaturthamsha the fourth house is again afflicted and the dasha at birth is of Sun, the twelfth lord, showing his movement from the place and home of his birth to that of his adoptive father.

P.V. Narasimha Rao

P.V. Narasimha Rao, the late prime minister of India went into adoption after his birth. Here the ninth lord is in the eighth house in the birth horoscope. He was born in the dasa of Saturn/Sun/Jupiter. Sun is the twelfth lord while Saturn and Jupiter are in the twelfth house. He went into adoption immediately after his birth.

I have asked Shri Rajbir Singh to examine these cases on such lines.

K.N. Rao

Introduction

"Child" is a pivot. Around which happiness, joy, prosperity & future of the entire family and society revolves.

In metropolitan cities, these days. Life has become very tense and hectic especially for people working in call centres and M.N.C. These people are forgetting and ignoring the basic traditional values of proper settlement in marriage and importance of child in the family. Such life full of mental tensions becomes an obstacle in expansion of family. Some couples, however, don't have children due to lack of blessings of God. Later on when medical aid is also not conducive for child birth, such couples plan to adopt 'child.' Sometimes, affluent people in our society adopt a 'child' even without getting married as Sushmita Sew and Engelina Jolly have done. Usually average couple adopts a child for happiness of their family.

Couple, desirous of adopting a child, can adopt the child from their own family or from other family known to them or from an orphanage or private institution.

As instructed by our Jyotish Guru Shri K.N. Rao Ji, I started my research on adoption since last two years. For research on this topic I collected many horoscopes of parents, who did not have their own child and adopted the child, from outside.

A thorough analysis of the horoscopes of parents revealed not only the causes of childlessness but also the **compinations** for adoption in their charts. Besides the horoscope of the adopted child had promise of being adopted by shousing change of parents.

Adopted children can be divided into 3 Categories:—

- (i) Child, whose mother is changed
- (ii) Child, whose father is changed
- (iii) Child, whose father & mother are changed

During my research on this topic I noticed that parametres for going abroad were generally found in horoscopes of adopted children. In some horoscopes, however, all these parametres appiled, but children didn't go in adoption on further enquires it

was found that these children went to hostels at young age for studies and got care, love and affection of their teachers & not their own parents. While doing this research. Some of my misconception were cleared the results were really satisfactory.

Important parametres in horoscopes of adopted child:—

1. Affliction to 9th house and ninth Lord in Birth chart (DI), Chaturthansha (D4) and Dwadashansha (D12)
2. Affliction to fourth house in Birth chart (D1) and Chaturthamsha (D4)
3. P.A.C. of 6,8, 12 houses with Dasha at Birth in all the three— Birth Horoscope (DI), Chaturthansha(D4) and Dwadashansha (D12)
4. P.A.C. of ninth Lord with 8th house in Birthchart
